# AIR CARGO BALL TRANSFERS

Lutco Ball Transfers for material handling applications are now available for order. Lutco BTUs allow for easy manual movement of ULDs, pallets and heavy cargo. This new heavy duty BTU product line is being introduced as our 1 3/16" / 30mm series pocket ball transfer. Lutco BTUs are offered with either carbon or stainless steel inner races depending on operating environment. Both designs are made with multiple weep holes for enhanced drainage. Custom configurations also available.
